Objective

A motivated and detail-oriented software engineer with hands-on experience working on multiple projects using technologies such as React, Next, Node, and JavaScript. Adept at coding, testing, and conducting code reviews, with a strong commitment to delivering high quality solutions. Eager to continue learning and leveraging my technical skills to contribute effectively to team success and organizational growth.

Skills

Frontend: React.js, Redux, Next.js, HTML, CSS, JavaScript, Tailwind CSS, SASS-CSS, Material-UI

Backend: Node.js, Express.js, RESTful APIs

Database: MongoDB, MySQL

DevOps & Tools: Jenkins, Docker, Git, GitHub, Postman, Firebase

Experience

Frontend Developer | Neural IT Pvt. Ltd. | Airoli, Navi Mumbai

July 2024 – Present

- Development of Entrust and NextWave, a React.js-based Medical Case Management System, optimizing case handling, payments, invoicing and sharebox.
- Implemented RBAC with Masquerade, enabling seamless role switching for Admin, Sales, Clients, and Users. Added an audit log feature to track changes.
- Built Prepaid & Postpaid billing with Auto-Swipe for automated transactions.
- Integrated Jenkins for CI/CD to automate build, testing, and deployment.

Software Engineer | Tush Entertainments Pvt. Ltd. | Malad, Mumbai

Aug 2023 – July 2024

- Developed and maintained web applications using React.js and Next.js.
- Worked on backend development using Node.js, implementing RESTful APIs and handling server-side logic.
- Integrated and implemented RESTful APIs to enable seamless frontend-backend communication.
- Collaborated with developers through code reviews and pair programming, improving code quality.
- Worked on projects: moovi.app, jalva.app, huntcinema.online.

Projects

Spotify Music Clone

- Designed and developed the frontend of a Spotify-like music streaming app using React.js
- Integrated Spotify API to fetch and display real-time music data.
- Implemented Redux for state management, ensuring smooth UI interactions.

Flipkart Clone

- Developed a Flipkart-inspired e-commerce frontend using React.js and Redux Toolkit.
- Designed a responsive UI with HTML & CSS, ensuring a seamless shopping experience.
- Implemented state management with Redux Toolkit for efficient data handling.

Education & Certification

Newton School, Full Stack Web Development, Bangalore

Oct 2022 – June 2023

Ramanand Arya D.A.V College, BSC in Information Technology

July 2019 – May 2022

XII - Science, Sandesh Junior College, Mumbai

July 2018 – April 2019

X - Padmavati Venkatesh High School, Mumbai

July 2016 – April 2017
